

**Thank you SDRC**

**Southern Downs**  
REGIONAL COUNCIL

This was our play area before our SDRC grant for \$2000 was approved.

Drought conditions had reduced this surface to a dust bowl, presenting a significant health hazard to the children who play on this equipment at mainly music. And as part of our weekly safety audit the conditions had become so hazardous that we had encouraged the children to play inside.

But thanks to the grant of \$2000 we were able to install a softfall surface that not only keeps this play area clean and dry but also safe for a 1 metre fall height – which our play equipment matches.
